

THE SOCIAL ECONOMY INITIATIVE OF THE REGIONAL DEVELOPMENT NETWORK

ENABLING QUÉBEC'S ENGLISH-SPEAKING COMMUNITIES TO BE MORE ACTIVE IN THE SOCIAL ECONOMY

SEEnet empowers Québec's English-speaking communities to build upon their vitality and creativity. By working with local talent and expertise, we help communities flourish.

SEEnet is building a network that will increase the participation of Québec's English speakers in the social solidarity economy. As the social-economy initiative of the Regional Development Network (RDN)—a collective of 18 regional organizations serving English-speaking communities in Québec—SEEnet is mobilizing resources so these communities can face socio-economic challenges with entrepreneurial approaches, active participation, and purposeful solutions. SEEnet is funded by the Secrétariat aux relations avec les Québécois d'expression anglaise.
